BRDGE
No Education with out Resource

BRDGE

""Education is the book of life. It is not a book of facts or theories. It is a book of experience and insight. It is not something you can read with your eyes or understand with your mind. It is something you have to live with your heart and soul."

BRDGE ETHIOPIA

Source of Innovative digital Resources for Education.

Chacha High school Students / Amhara

What We Do

BRDGE-Ethiopia is dedicated to support students through innovative digital technology to achieve equity, quality, and inclusive education for all.

- Develop Software to improve access and equity in education resources.
- Develop and digitalize Content
- Identify and Introduce Educational Technology.

Our story

BRDGE:- has supported more than 30K students in the last five years by introducing an offline grade specific tablet to student and server installed with in the school compound, with millions of resources. Student can access more resources through wireless access point installed with in the school.

The solution is piloted in Amhara and Oromia region, of 2 high schools. It is serving the school for the last 5 years, as It is given to the school, to remains as own property.

Our Success Stories

Our offline Tablet and resources server solution, was evaluated and indorsed by ministry of education. The assessment shows that students with our solution have significantly higher pass mark than those who have not used them.

UNESCO keynote speech at the mile stone:-

UNESCO's motto is humanity and peace. In this case, we are always advocating for peaceful, inclusive and learning society. We found this technology, equalizer, to make between urban and rural, out of school children and formal school learners, and adults. We found this technology helpful to help the society to move together : "Mr. Samuel Asnake"

Assessment output so far:

- Enhanced learners engagement and loyalty through interactive and personalized content

- Improved access and equity in education by providing diverse resources and inclusive learning opportunities for all learners, .

Evaluation workshop

Who We Are

BRDGE-Ethiopia:- was established in 2019, and aims to improve accessibility to educational resources by implementing digital technology, which has a significant impact, as it enables new ways of teaching and learning, enhances access to information, and fosters collaboration and communication. We have team of experts and developers who have years of experience in the field. We also work wit MoE, MoH, Diasporas, and CSO's

Our Solutions

- Offline Tablet for high school
- Resource in school server, with WAP coverage
- Tablet for visually impaired students
- Tablet for accelerated Learning
- SIMS and LMS, and more...
